SPIRIT

A COLLECTION OF PRINTS BY KATE BOXER

Kate Boxer’s work captures the spirit of both animals and humans. Her delicate prints encapsulate her highly individual style, a balance of colour with a sense of wit and tenderness.

Kate's portraits are simple yet full of character, endearing the subject to the viewer. Her portfolio of prints is vibrant and sometimes quirky, but always created with integrity and skill. Her depictions of people and animals are pure, sympathetic and tender, with a strikingly confident use of line and colour.

Kate deploys a number of print techniques in her work, often adding areas of hand colouring to the drypoint and carborundum print editions. This gives each print a slight variation and a sense of individuality.

Kate Boxer was born in Sussex in 1961 and studied art at the London Art Schools.
