JOHN ALEXANDER

HONG KONG

A NEW JOURNEY WITH JOHN ALEXANDER

John Alexander is a fine-art photographer known for composing abstract patterns from distressed surfaces encountered on his travels.

This exciting new collection focuses solely on his recent travels to Hong Kong.

“Every destination comes with its own sense of place, personality or feeling. We evoke this feeling through our own senses as we explore a place and create our own narrative. My subjects are created physically through a combination of anthropomorphic activity and atmospheric conditions but they have a history from the years in which it took to create them. To me, it's absolutely fascinating to think of my subject's intricate journey as I search for the right composition. Each detailed image, sometimes only centimetres in size, is an almost archaeological depiction of a destination. However, with usually no clues to its history, and with the benefit of abstraction, we are able to imagine and create our own sense of place, making our own story from the photograph”.

“Photography takes me to some incredible destinations around the world. This latest portfolio concentrates on Hong Kong, a place that always will pull me back there.

All of John Alexander's photographic images are available in the following 4 sizes and are limited to editions of 30, signed & numbered by the artist:

Image size: 45 x 36 cm at £245

Image size: 70 x 55 cm at £350

Image size: 100 x 80 cm at £695

Image size: 130 x 104 cm at £975
